NEW WONDER®

Scaevola aemula

NEW WONDER®
Scaevola aemula 'Newon' USPP10584 Can1710

Don't be fooled by their delicate, lacy flowers and gracefully mounding/spreading habit. Fan Flowers are native to the bush country of Western Australia. Constantly in flower, these combo stars also boast attractive foliage and a well-branched habit. New Wonder, the first Proven Winners success, continues to bring beauty and enjoyment to millions of home gardeners. If the temperatures in your region are too hot to successfully grow Lobelia, try heat-tolerant New Wonder.

Growing Tips:
Self-cleaning, deadheading not necessary.

Exposure: Full sun
Height: 10-14"
Spacing: 10-12"
Hardy Temp: 30°F (-1°C)

Uses:
Use in hanging baskets, window boxes, landscaping, and combination planters.

Features:
Flowers all season; excellent heat and drought tolerance; low maintenance.

The #1 Plant Brand.®

Additional Culture Information for NEW WONDER®

pH/EC:	5.5 - 5.8 / .6 - .9
Growing Temperature:	65-72°/65-72°
Holding Temperature:	50-60° outdoors
Water Requirements:	Moderate to Moist
Planting and Timing:	Early Spring through Fall Finish. Standard Plants per pot.
Finish Times in Weeks:	For 4-5", 4-6; for 6"/gallon, 5-7; for 8", 7-9; for 10-12", 10-12
Spring Outdoor Finish:	Do not finish outside

Notes:

For pots 6" and smaller, pinch at transplanting only. For hanging baskets and pots larger than 6", soft pinch at planting and additional pinches as needed. Sumagic® at 2-5 ppm has been effective at controlling growth.

Early drench with Bonzi causes lighter growth from center and prevents need of late season pinching. The application of Bonzi prevents the need for a secondary pinch, and therefore the energy is channeled into earlier blooms.
