Best-Selling Recipes

Meet Your Three New Best-Sellers

Looking to give your sales an extra boost in spring, summer and fall? Growers and retailers have found huge successes in growing and selling our dependable, in-demand National Recipes. Newly expanded for 2017, our trial managers and marketing team have chosen three different recipes to help you bring your customers back for fresh product each season.

Each recipe features three of our most popular varieties in colors to suit each season.

Above & Beyond features our National Plant of the Year, Supertunia® Vista Bubblegum® and the improved new Supertunia® Vista Fuchsia.

Backyard BBQ showcases heat tolerant varieties like our new Supertunia® Really Red and Flambe® Yellow *Chrysocephalum*, an often overlooked but perfect plant for summer sales.

Honeybelle celebrates the fall planting season with the super floriferous new Superbells® Yellow Improved, our popular Campfire™ *Bidens* and dynamic Supertunia® Honey, which has made its way onto our Top 50 Best-Sellers list in its first year of introduction.

The Container Style Program Means No Extra Tags

Combination planters may be the highest priced plant item you sell, yet many times they are not labeled or the tags are buried in the soil. With the Container Style Program, you get one large, prominent tag for the complete combo.

When placing your order for liners, just let our propagators know these will be used for combinations and we will provide the proper combination tag that is suitable for hanging baskets or for upright containers. You don't need to worry about the cost of extra stake tags. When ordering multi-liner combinations, the appropriate tags will come automatically.

How to create your own custom tag:
Contact your customer service representative at the Proven Winners propagator of your choice with the information needed to set up the tag, including the name of the combination and the ingredients list. Your Proven Winners propagator will then pass on this information to the tag company, and the tags will be sent to you.

Please keep in mind the minimum tags per combination recipe is 210 (bundled in groups of 21). So, if you have a recipe you'd like to repeat for several years we'd be happy to set the tag for you.
