INCREDIBALL® HYDRANGEA
Hydrangea arborescens
This improved version of ‘Annabelle’ has large flowers held upright on sturdy stems – no flopping!
LITTLE LIME®
_Hydrangea paniculata_

The dwarf form of ‘Limelight’ hydrangea has the same easy flowering and unusual color of the original but is only 3-5’ tall.

SHOW OFF®
_Forsythia x_

The exceptional flower display and compact size of these new forsythias make them superior choices for landscapes.

KODIAK®
_Diervilla_

More colorful selections of this durable native plant. Choose from Orange, Red, or Black.

TINY WINE®
_Physocarpus opulifolius_

Finely textured disease-resistant cultivar of our native ninebark. The dark foliage turns red in fall.

YUKI CHERRY BLOSSOM™
_Deutzia_

Finally, a pink flowered Deutzia ‘Nikko’! This compact, deer-resistant Deutzia is great for mass plantings, and adds both spring and fall color to the landscape.

SPILLED WINE®
_Weigela florida_

A compact version of Wine ® Roses®, it is just 2-3’ tall and 3’ wide. An excellent choice for mass plantings.

SUGAR SHACK®
_Cephalanthus occidentalis_

Compact form of our native buttonbush, it has showy red fruit. A good plant for rain gardens and wet sites.

LEMONY LACE®
_Sambucus racemosa_

A showy native plant with outstanding color and texture, Lemony Lace™ Sambucus is an excellent specimen plant. Use it as an alternative to Japanese maple in harsh climates.

DOUBLE PLAY®
_BIG BANG™_
_Spiraea_

Massive pink flowers and showy orange spring foliage make this a superior spirea selection.
