It’s a sure thing.
Given all the tensions in life, sometimes you just need products and plants that are going to work. Period. It’s an easy decision to choose a self-watering AquaPot that takes the worrying out of watering, or our premium plant foods that provide everything your plants will need to thrive. Using our handy Twist ‘n Plant® garden auger makes planting fast and fun. Starting with award-winning plants is a guaranteed win, too. You have the challenges, Proven Winners has the solutions. Let’s do this!

Discover more Proven Beauty at beauty.provenwinners.com
Like the ideas you see in this Gardener’s Idea Book? Then you will love Proven Beauty, our specialty website for gardening inspiration, how-tos, recipes and more. There, you will find extended information and photos for many of the topics you see in this book. While browsing the site, take a moment to scroll through loads more fab ideas from our previous idea books. You’ll find everything from planning an outdoor wedding to schematics for building your own planter boxes, projects for children, holiday-themed crafts and so much more.

Planting tips.

1. Place the plant in the hole,.comes with the package.
2. Add plant food to the planting hole.
3. Water once the soil is moist.
4. Remove the plant from its container.
5. Use AquaPot at the root ball and just so deep at the plant’s container.
6. Read plant tag for care instructions and the best place to plant.

Remember to feed your annuals every 3rd watering.

CATCH A Rising Star

Spring brings with it a natural sense of renewal, a chance to begin again and try something new. At Proven Winners, we are honored to play a small role in bringing joy into your life through the beauty of flowers and plants every year. One easy place to start is with our award-winning Annual and Caladium of the Year. Only good things can come from growing these cheery plants. Starry eyed Supertunia Mini Vista® Pink Star and amazingly versatile Heart to Heart® ‘White Wonder’ caladiums will brighten your outdoor living spaces from spring to fall this season. Let’s get started!

Laura of @Garden Answer loves Supertunia Mini Vista® Pink Star! Despite her hot summers, this splashy striped petunia blankets her garden beautifully in non-stop color from spring into fall. Try it as a flowering groundcover or planted along the front of your foundation beds.

Discover the many uses for our Annual and Caladium of the year, including planting and growing tips for containers and landscapes at pwwin.rs/npoy.

VERSATILE BEAUTY

All-around versatility is just one thing you will love about our Annual and Caladium of the Year. Whether you are planting up a few porch pots or filling an entire garden bed, these plants will grow beautifully for you. In cooler climates with humid summers, both will enjoy six or more hours of sun each day. If you live someplace warmer, you’ll want to provide some protection from the hottest afternoon rays for Heart to Heart® ‘White Wonder’ caladium. Find inspiration in the recipes you see here or mix and match your favorites to make your own.

**NATIONAL PLANTS OF THE YEAR**

- **Cat's Pajamas** *Nepeta*
  This little catmint packs enormous flower power into a single square foot, blooming for months while delighting passing pollinators.

- **KODIAK® Orange Diervilla**
  Everything you’ve ever wanted in a native shrub: summerlong flowers for pollinators, fab fall color, super easy and deer resistant, too!

- **OSO EASY ITALIAN ICE® Rosa**
  Excellent disease resistance and prolific blooms in shades of pink, peach and yellow will make this one of your favorite landscape roses.

- **TUFF STUFF AH-HA® Hydrangea**
  Extra-cold hardy buds, waterlily-like flowers and strong rebloom are three exceptional reasons to grow this mountain hydrangea.

- **PUGSTER BLUE® Buddleia**
  Plump blossoms adorn this neatly mounded shrub for months in summer, a huge draw for monarch and viceroy butterflies.

**Hosta of the Year**

**SHADOWLAND® ‘Wheeee!’ Hosta**
A must-have hosta for children’s gardens and anyone who appreciates a whimsical approach to gardening. Check out those ruffles!

**Perennial of the Year**

**‘Cat’s Pajamas’ Nepeta**
This little catmint packs enormous flower power into a single square foot, blooming for months while delighting passing pollinators.

**Landscape Shrub of the Year**

**KODIAK® Orange Diervilla**
Everything you’ve ever wanted in a native shrub: summerlong flowers for pollinators, fab fall color, super easy and deer resistant, too!

Learn how to plant, prune and grow all of our National Plants of the Year at powin.rs/npoy.
What makes a National Plant of the Year? Our perennial and shrub experts have spent decades evaluating plants and developing improvements. They know how to spot a Proven Winner. The varieties selected for these prestigious awards are truly the best in class as determined by those in the know.

Cat’s Pajamas

Nepeta

This little catmint packs enormous flower power into a single square foot, blooming for months while delighting passing pollinators.

KODIAK® Orange Diervilla

Everything you’ve ever wanted in a native shrub: summerlong flowers for pollinators, fab fall color, super easy and deer resistant, too!

OSO EASY ITALIAN ICE® Rosa

Excellent disease resistance and prolific blooms in shades of pink, peach and yellow will make this one of your favorite landscape roses.

TUFF STUFF AH-HA® Hydrangea

Extra-cold hardy buds, waterlily-like flowers and strong rebloom are three exceptional reasons to grow this mountain hydrangea.

PUGSTER BLUE® Buddleia

Plump blossoms adorn this neatly mounded shrub for months in summer, a huge draw for monarch and viceroy butterflies.

SHADOWLAND® ‘Wheee!’ Hosta

A must-have hosta for children’s gardens and anyone who appreciates a whimsical approach to gardening. Check out those ruffles!

Larry and Manon were absolutely determined to make their daughter’s graduation celebration memorable, despite having to cancel the big shindig. As a catering chef, Manon knew that starting with homegrown vegetables and herbs was essential to creating a delectable menu. As she and her daughter Nicolina planned the meal, they made sure the Proven Harvest® basil, tomatoes, peppers and strawberries were started early enough in the season to be harvested for the big day. Hydrangeas were planted the year prior so they would be ready to use for fresh bouquets. Judging by the smiles on their faces, it turned out to be a meal that will be recounted in family stories for years to come. Even Pippin, the mini goldendoodle, joined in the fun!

**In the garden and in containers:**
AMAZEL BASIL® Sweet Italian Basil, LADY GODIVA® Orange Calendula, LADY GODIVA® Yellow Calendula, SUNSHINE® Yellow Hydrangea, MIDNIGHT KNIGHT® Lobularia, FIRE AWAY® Hot and Heavy Pepper, SEO EASY DOUBLE RED® Rasa, BERRIED TREASURE® Strawberries, TEMPTING TOMATOES® GOODHEARTED® Tomatoes, MOONLIGHT KNIGHT™ Lobularia, ROCKIN’® ‘Golden Delicious’ Pineapple Sage and CATALINA® GILDED GRAPE™ Torenia

**Cut flower arrangements on dinner table:**
PEGASUS® Begonia, SHADOWLAND®  'Autumn Frost' Hydrangea, LET'S DANCE® BLUE JANGLES® Hydrangea macrophylla, QUICK FIRE® Hydrangea paniculata and variegated sedum

GROW MEMORIES AT HOME

In the garden and in containers:
AMAZEL BASIL® Sweet Italian Basil, LADY GODIVA® Orange Calendula, LADY GODIVA® Yellow Calendula, SUNSREDIBLE® Yellow Helianthus, MIDNIGHT KNIGHT® Lobularia, FIRE AWAY® Hot and Heavy Pepper, OSO EASY DOUBLE RED® Rosa, BERRIED TREASURE® Strawberries, SHUFFLE TOBACCO® EDDIEHEARTED® Tomatoes, POGONI™ Garden Delicacia® Pastel Sage and CATARINA™ GILDED GRAPE™ Torenia

Cut flower arrangements on dinner table:
PEGASUS® Begonia, SHADOWLAND® ‘Autumn Frost’ Hosta, LET’S DANCE® BLUE JANGLES® Hydrangea macrophylla, QUICK FIRE® Hydrangea paniculata and variegated sedum
Few hobbies cross all boundaries like gardening. No matter who you are or where you are from, anyone can begin with something as simple as a few seeds and a cup of soil to grow beautiful, nutritious plants. Whether you are limited to a sunny windowsill or are blessed with acres of fertile soil, you have the ability to grow something meaningful. In the process, you’ll reap the health benefits of being around living, breathing plants.

It’s OK if you’re just getting started. We are here to help!

Using just the beds surrounding their backyard patio, Manon and her family were able to grow plenty of produce to use in this celebration’s recipes. When you plant more petite varieties like Tempting Tomatoes® Goodhearted® and Fire Away® Hot and Heavy peppers, you’ll reap a generous, but not overwhelming, harvest.

Find many of the mouthwatering recipes used for this garden to table celebration, at pwwin.rs/celebration.

In the garden and containers:
- AMAZEL BASIL® Sweet Italian Basil
- LADY GODIVA® Orange Calendula
- LADY GODIVA® Yellow Calendula
- SUNCREDIBLE® Yellow Helianthus
- MOONLIGHT KNIGHT™ Lobularia

CAN YOU FEEL THE HEAT?

When summer reaches a feverish pitch, you might head indoors for some relief but that’s when this garden is just getting energized. It is filled with heat loving flowers that grow and bloom even more profusely as temperatures rise. If you live where summers can be scorcher, these ideas are perfect for you. We garnered the expertise of southern gardening expert Norman Winter, The Garden Guy, to choose the best heat tolerant plants for this type of garden.

The structural elements shown here, including the stonework, trees and boxwood hedge, were already in place when we arrived. In just one season, our designers transformed it into a welcoming, flower-filled space that naturally drew in all sorts of pollinators and birds for the homeowner to enjoy.

Flip to the next page to see more of Norman’s ideas.

WELCOME, POLLINATORS!

When it's time to plan out your garden for the new season, consider factors like the color, shape and bloom time of the flowers you choose to maximize the benefits your garden can provide for pollinators. In the garden above, the pairing of Truffula Pink gomphrena, Vermillionaire cuphea and Blue My Mind dwarf morning glories planted in front of the boxwood hedge repeatedly drew in numerous kinds of bees, butterflies and hummingbirds.

The container recipes pictured below were designed and grown by Norman Winter with a goal of discovering heat tolerant plants for his zone 8 climate that could draw in pollinators. As you can see from Norman's photos at right, they were a huge hit!

The container recipes pictured below were designed and grown by Norman Winter with a goal of discovering heat tolerant plants for his zone 8 climate that could draw in pollinators. As you can see from Norman's photos at right, they were a huge hit!

Norman Winter's passion for photographing butterflies and hummingbirds grew out of his decades of work evaluating flowering plants in Texas, Mississippi and Coastal Georgia. He shares his stunning captures and southern gardening advice on social media as @NormanWinterTheGardenGuy and in syndicated columns which reach millions of readers each week.

**Norman Winter’s Top 10 List – Heat Tolerant Annuals for Pollinators**

- TRUFFULA™ Pink Gomphrena
- LUSCIOUS® Lantana
- VERMILLIONAIRE® Cuphea
- ROOON® Salvia
- HEAT IT UP® Gaillardia
- SUNCREDIBLE® Yellow Helianthus
- TOUCAN® Canna
- SUNSTAR® Pentas
- UNPLUGGED® SO BLUE® Salvia
- MACHU™ Morado Ruellia

*Best in southern climates with a long growing season.*
SIMPLY STYLISH FOLIAGE

Prefer a look that blends clean lines with a simple, natural color palette? Looking for no-nonsense, low maintenance plants? Our line of Proven Accents® fresh foliage is the perfect fit for you.

Rather than focusing on multicolored blossoms, this plant-packed patio features invigorating greens, soothing silvers and deeply grounded purples. Pure white and natural wood accents create a healthy, uplifting ambiance while moveable living walls make this outdoor living space easy to rearrange on a whim.

In the backyard:

Knowing this may not be the year to take that trip to the tropics, let’s bring the beauty of the islands right to your own backyard. You will reap many of the same health and well-being benefits of going on vacation but only have to travel as far as your patio. Better yet, you can enjoy it every single day! Look at the gorgeous tapestry of colors, textures, shapes and sizes these plants create. Though each plant is different, they all share a preference for warm, humid weather and some shielding from the leaf-scorching afternoon sun. This garden is irrigated regularly so no parching occurs. When you surround yourself with lush plants like these, it’s easy to leave all the cares in the world behind and be present in the moment. Our gardens can provide us with a beautiful place to escape and grow memories with family and friends.

Design tip: The Eclipse of the Sun National Recipe can be nestled into the garden, as seen behind the table setting, or set right onto the patio.

SCALABLE DESIGN

The long bed on the previous page is magnificent, but if your garden is smaller, it’s easy to take one section and scale it down to fit. Follow the plan below to create a 10’ x 6’ border or use fewer plants in a tighter space. The basic design principles remain the same no matter what you are working with. As long as you stick to the idea of planting the tallest varieties in the back and graduate down to the shortest plants in front, you can’t go wrong.

It’s important to consider the mature size of each plant right from the start so each will have enough room to grow to its potential. Height and spacing indicated on the plant label will help you thoughtfully plan things out. You will be amazed how quickly these plants flourish!

Below, the tan discs show how small each plant is at planting time versus the larger mature size indicated by the circles. Those that overlap signify taller plants like colocasias that cast an umbrella over lower growing ones. Remember, it’s perfectly alright to rearrange things once they get growing.

Below, the tan discs show how small each plant is at planting time versus the larger mature size indicated by the circles. PLANT YOUR PORCH

First impressions begin on your front porch. What does yours say about you?
Follow these three helpful tips when choosing plants to dress up your entryway.

1. If your front porch is sunny, choose plants that can handle the reflected heat and light. Drought tolerant varieties are useful if your pots are not self-watering or you tend to miss a few days between watering. Many silver foliage plants fit these criteria.

2. Choose annuals with small, light-colored blossoms that will drop cleanly and won’t stain the porch floor. Foliage plants are ideal for such locations since they don’t shed.

3. Your porch flowers will always look their best when you use self-watering ceramic AquaPots® because of the constant access to nutrient-infused water.

Above and opposite: SILVER BULLET® Artemisia, GOLDILOCKS ROCKS® Bidens, SUPERBELLS® HOLY SMOKES!® Calibrachoa, FAIRY DUST® Pink Cuphea, SILVER FALLS™ Dichondra, DIAMOND FROST® Euphorbia, STRATOSPHERE™ White Gaura, White Licorice Helichrysum and SUPERBENA® WHITEOUT™ Verbena

Above and opposite: AquaPots® Chevron Eggplant Tall Planter – 18.5” and 23.2”
First impressions begin on your front porch. What does yours say about you?

1. If your front porch is sunny, choose plants that can handle the reflected heat and light. Drought tolerant varieties are useful if your pots are not self-watering or you tend to miss a few days between watering. Many silver foliage plants fit these criteria.

2. Choose annuals with small, light-colored blossoms that will drop cleanly and won’t stain the porch floor. Foliage plants are ideal for such locations since they don’t shed.

3. Your porch flowers will always look their best when you use self-watering ceramic AquaPots® because of the constant access to nutrient-infused water.

Container Gardening Made Easy

Since our luxury quality ceramic, self-watering AquaPots debuted last year, they have been earning their keep on porches and patios from Alaska to the Florida Keys. If you love container gardening but don’t have the time or energy to haul out the hose every day, AquaPots offer a stylish yet practical solution. Simply fill the water reservoir once a week and you will be amazed how your plants thrive while conserving water in the process. Find them at local garden centers nationwide this spring. Don’t miss our 2021 AquaPot of the Year, Lily Leaf, shown in the patio scene above filled with thriving coleus, grasses and sweet potato vines.

Learn more about AquaPots and find a retailer near you or order online at pwwin.rs/aquapots.
American Pie

Hydrangeas and AquaPots are a match made in gardening heaven. These moisture-loving shrubs with lush blossoms thrive with a constant supply of water, especially when the summer sun is blazing.

Get this look by selecting a large AquaPot at least 18” in diameter, plant your favorite bigleaf hydrangea in the center, then surround it with blooming annuals to provide instant color. Would this dreamy cool blue palette suit your deck, too?

Planting tip: In early fall, it’s time to uproot your hydrangea and move it to a new spot in the landscape where it can provide years of future enjoyment. Wintering over in the ground will protect the plant’s roots better from the cold. Note that if your soil is alkaline, these hydrangeas will bloom pink in subsequent years.

In containers this page and opposite:
LET’S DANCE® BLUE JANGLES® Hydrangea macrophylla, LET’S DANCE® RAVE® Hydrangea macrophylla, SILVER FALLS™ Dichondra, DIAMOND SKY® Euphorbia, SUPERSTANA MINI WAVE® Indigo Petunia, SUPERSTANA® ‘Icing Blue’ Variegated Petunia, CATALINA® GRAPE-O-LICIOUS™ Torenia, CATALINA® White Linen Torenia, SUMMER WAVE® Large Amethyst Torenia and SUPERTUNIA® WHITEOUT™ Petunia

At right in landscape to the left of the deck:
TUFF STUFF AH-HA® Hydrangea serrata with SILVER BULLET® Artemisia and White Licorice Helichrysum

At far right: LET’S DANCE® BLUE JANGLES® Hydrangea macrophylla planted in the landscape

AquaPots used:

Learn more about keeping your hydrangeas well-hydrated using AquaPots or our WaterWise system at pwwin.rs/happy-hydrangeas.

Gardening and home décor blogger Tracy of @ plaids and.poppies has one rule for her garden: all colors are welcome. Every hue she can muster is reflected in the palette of annuals, tropicals and hardy plants that fill her garden.

Notice how she packs her window boxes and patio pots with a kaleidoscope of blooms that are equally delightful when viewed from the pool or from the inside looking out. Masses of vibrant perennials and flowering shrubs fill large expanses in the landscape, providing persistent color from year to year.

Tracy’s joyful energy is expressed beautifully in her garden and warmly felt by the many friends and family members who visit. You might assume she has a gardener, but this garden is entirely her creation. If Tracy can accomplish this in her zone 5 Michigan garden, think of what you could do in your own!

See more of Tracy’s fabulous garden at pwwin rs/plaids-and-poppies.
COLOR, COLOR, COLOR!

Stop for a moment and imagine the peace you would feel by spending an hour here. In this space, worries are checked at the door and birds’ melodic songs float in on the fresh breeze. It’s a little slice of heaven on earth!

No grand architectural plans were needed to create this serene scene. Instead, the homeowner purchased a standard gazebo kit from their local home improvement store and stained it brown to blend with the surroundings. Kiln-dried redwood window boxes were perched atop strong supports attached along the roofline and planted up with a living curtain of vinca vines. A patterned outdoor rug provided the finishing touch to visually ground the seating area.

Since the sun blasts this area intensely each day, durable heat tolerant plants were selected to fill the Vietnamese red clay pottery showcased at the gazebo’s entrance. Fiery reds and oranges glow in the bright light, providing splashy contrast against the dark backdrop.

Backyard foraging specialist and author Ellen Zachos calls ornamental plants with edible parts the “superheroes of the modern garden, feeding both the body and soul with their deliciousness and beauty.” Plus, they’re fun!

The plantings here were designed for a dual purpose: enhancing the outdoor living space while growing flowers that could provide a fresh botanical flourish for recipes. There’s a practical use for these edible beauties, too. The home shown above belongs to a family with young children who tend to put things in their mouths first and ask later. Using safe plants like Berried Treasure® strawberries in the containers makes the space completely worry-free.

**Opposite in containers:**
- DOUBLE DELIGHT™ Primrose Begonia
- DOUBLE DELIGHT™ Blush Rose Begonia
- DOUBLE UP™ Pink Begonia
- PEGASUS® Begonia
- Asparagus Fern Asparagus
- Sweet Caroline MEDUSA™ Green Ipomoea

**Opposite, as garnish to food:**
- DOUBLE DELIGHT™ Primrose Begonia
- DOUBLE DELIGHT™ Blush Rose Begonia
- FRUIT PUNCH® ‘Cranberry Cocktail’ Dianthus
- BERRIED TREASURE® Fragaria (Strawberry)
- RINGO ALL-STAR™ Rose
- RAINBOW RHYTHM® ‘Storm Shelter’ Hemerocallis (Daylily on salad)

**EDIBLE DECOR**

**Above – 1:**
- AMAZEL BASIL® Sweet Italian Basil

**2:**
- COLOR CODED™ ‘The Price is White’ Echinacea

**3:**
- BERRIED TREASURE® White Fragaria (Strawberry)

**4:**
- PEPPY LE POM™ Punica

**5:**
- COLOR CODED™ ‘The Price is White’ Echinacea (Coneflower), BERRIED TREASURE® White Fragaria (Strawberry), AMAZEL BASIL® Sweet Italian Basil, CERVEZA ‘N LIME® Plectranthus and PEPPY LE POM™ Punica

**Above outlined, left to right:**
- DOUBLE DELIGHT™ Blush Rose Begonia,
- COLOR CODED™ ‘The Price is White’ Echinacea (Coneflower), RAINBOW RHYTHM® ‘Lake of Fire’ Hemerocallis (Daylily), DOUBLE DELIGHT™ Primrose Begonia and OSO EASY ITALIAN ICE® Rosa

**Harvesting Tips:**
- Only harvest flowers you are 100% positive are edible.
- Choose flowers that are grown organically.
- Gather them early in the morning when their essential oils are most intense.
- Remove the stamens and pistil before eating.
- Consume edible flowers in moderation.

Find oodles of inspiration for edible flower décor at pwwin.rs/edible-flower-guide.

ONE ENTRANCE / FOUR SEASONS

Celebrate all four seasons on your front porch using this engaging idea. We started by planting a single Pinpoint® Blue false cypress shrub in each of these 20" containers in spring, then surrounded them with flowers that flourish early in the season. To celebrate summer’s arrival, we swapped in annuals that could handle the reflected heat and light from the whitewashed brick. Classic cool season kale, purple millet and pumpkins completed the fall look followed by holiday greens, twigs and berries. Through it all, you can see the shrub didn’t mind the seasonal changeouts at all – in fact, it grew nearly nine inches!

Find more plant recommendations for multi-season container gardening at pwwin.rs/multi-season.

UNDERSTANDING FOUNTAIN GRASS DYNAMICS

Purple fountain grasses make striking thrillers in containers, but it’s worth understanding how they grow and change through the seasons. They are far more robust than you might expect, with roots that easily pack large pots and leave little room for neighbors as summer wanes.

In spring, you’ll be eager to plant the pot’s edges with instant color annuals, but by midsummer as the grass begins to dominate it will be time to remove those that become overshadowed. In fall, fill any gaps with seasonal accents like gourds and pinecones which won’t require root space. Since these grasses are not cold hardy in most climates, the entire pot’s contents can be composted at the end of the year.

At left: GRACEFUL GRASSES®
Purple Fountain Grass Pennisetum and GRACEFUL GRASSES® VERTIGO®
Pennisetum underplanted with CAMPFIRE® Flame Bidens, SURF BELLS® Double Orange Calibrachoa, COLOR BLAZE® Chocolate Drop Coleus, VERMILLIONAIRE® Cuphea and LUSCIOUS® GOLDEN GATE™ Lantana.

DESIGNING WITH

Fantastic Foliage

Clockwise from top left: PRIMO® 'Peachberry Ice' Heuchera, 'Heaven Scent' Polemonium, 'Jack of Diamonds' Brunnera, ROCK 'N LOW™ 'Boogie Woogie' Sedum, SHADOWLAND® 'Hudson Bay' Hosta, DOLCE® 'Wildberry' Heuchera, 'Drops of Jupiter' Origanum, PRIMO® 'Black Pearl' Heuchera, 'Spot On' Pulmonaria, ROCK'N GROW® 'Lemonjade' Sedum, 'Crested Surf' Athyrium, SHADOWLAND® 'Diamond Lake' Hosta, Firefly Sunshine Achillea (Yarrow) and SHADOWLAND® 'Wheee!' Hosta

Fantastic Foliage

Orchestrating a steady parade of flowers in a perennial garden takes some time to master, as many are in spectacular bloom for a particular window of time. That's why you'll want to consider foliage, too, when planting a botanical tapestry of perennials. By pairing those with a contrasting mix of textures, colors and shapes, visual interest remains high all season. The fleeting flowers will be appreciated all the more as they come and go through the seasons.

Foliage is especially important to consider in smaller gardens where details like lacy texture are more noticeable up close and in shade gardens where flowers may play a secondary role. If most of your perennials have similar foliage, the space may feel lackluster when the plants aren't in bloom. When shopping for plants, pay particular attention to the foliage of those you select to make sure there isn't too much the same. Be sure to include a few with big, bold leaves to amp up the visual dynamics in the space.

8 EXCEPTIONAL NEW PERENNIALS

It takes a keen eye and decades of experience working closely with perennials to find new selections that can live up to our challenging brand standards. We are incredibly proud to celebrate our ten-year anniversary of Proven Winners Perennials. What began as a small palette of just a few dozen plants has now expanded to 157 of the most unique, high performance perennials you’ll find anywhere. Here are eight of our best new introductions this year.

Left to right: ‘Paint the Town Fancy’ Dianthus, LUMINARY™ ‘Opalescence’ Phlox, COLOR SPIRES® ‘Back to the Fuchsia’ Salvia

Explore the full range of exceptional Proven Winners perennials that bloom in sun and shade throughout the seasons at pwwin.rs/exceptional-perennials.

‘Paint the Town Fancy’ Dianthus (Pinks)
WHAT’S NEW:
Larger, vivid bicolor blooms blanket fresh blue, mounded foliage in early summer, repeating for several months. Gorgeous planted as a flowering groundcover.

SUMMERIFIC® ‘Spindrella’ Hibiscus (Rose Mallow)
WHAT’S NEW:
A refined rose mallow with impeccable form. Fairytale pink and white patterned blossoms with a dark red eye appear prolifically from midsummer into fall.

‘Heaven Scent’ Polemonium (Jacob’s Ladder)
WHAT’S NEW:
Eye-catching ferny foliage awakens deep purple, becoming topped with fragrant, blue flowers in spring. Provides beautiful textural contrast to other sun and shade loving perennials.

LUMINARY™ ‘Opalescence’ Phlox
WHAT’S NEW:
The first in a fabulous new series of highly mildew resistant tall phlox. Large, fluffy clusters of fragrant, light pink flowers with a deep pink eye are a favorite of butterflies.
It takes a keen eye and decades of experience working closely with perennials to find new selections that can live up to our challenging brand standards. We are incredibly proud to celebrate our ten-year anniversary of Proven Winners Perennials. What began as a small palette of just a few dozen plants has now expanded to 157 of the most unique, high performance perennials you’ll find anywhere. Here are eight of our best new introductions this year.

**COLOR CODED™ ‘The Price is White’ Echinacea (Coneflower)**
- **WHAT’S NEW:** Large, elegant white flowers provide striking contrast against the extra-dark green foliage of this knee-high perennial in high summer. Butterflies and goldfinches are frequent visitors.
- **Height:** 20-22”  **Spread:** 16-18”  **Zones:** 4-8

**DOLCE® ‘Toffee Tart’ Heuchera (Coral Bells)**
- **WHAT’S NEW:** Delectable shades of sticky caramel and ginger with a sugary silver overlay decorate this delightful coral bells. It’s ideal for containers and the front of shaded garden beds.
- **Height:** 8-10”  **Spread:** 16-18”  **Zones:** 4-8

**SUMMERIFIC® ‘French Vanilla’ Hibiscus (Rose Mallow)**
- **WHAT’S NEW:** A color breakthrough! Soft yellow buds unfurl to creamy custard colored, red-eyed blossoms that cover this robust shrub-like perennial for months beginning midsummer.

**LUMINARY™ ‘Opalescence’ Phlox (Tall Garden Phlox)**
- **WHAT’S NEW:** The first in a fabulous new series of highly mildew resistant tall phlox. Large, fluffy clusters of fragrant, light pink flowers with a deep pink eye are a favorite of butterflies.
- **Height:** 30-32”  **Spread:** 24-28”  **Zones:** 3-8

**‘Heaven Scent’ Polemonium (Jacob’s Ladder)**
- **WHAT’S NEW:** Eye-catching ferny foliage awakens deep purple, becoming topped with fragrant, blue flowers in spring. Provides beautiful textural contrast to other sun and shade loving perennials.
- **Height:** 18-24”  **Spread:** 15-18”  **Zones:** 3-7

**COLOR SPIRES® ‘Back to the Fuchsia’ Salvia**
- **WHAT’S NEW:** Brilliant fuchsia pink flowers strung along charcoal stems bring a rush of color and welcome pollinators back into the garden in late spring. One of our newest favorites!
- **Height:** 22-24”  **Spread:** 22-24”  **Zones:** 3-9

Explore the full range of exceptional Proven Winners perennials that bloom in sun and shade throughout the seasons at pwwin.rs/exceptional-perennials.
Not all hedges are evergreen. In spots where winter screening isn’t vital, consider growing a hedge of fabulous flowering shrubs instead. When you use low maintenance varieties like the ones you see here, they are just as easy care as evergreens.

You already adore the one hydrangea you’ve planted just outside your front door. Now imagine a hedge of ten! Or, how about a whole row of Oso Easy Double Red® roses for a constant supply of fresh bouquets all summer? Durable deutzias offer no-nonsense beauty and frothy spring blooms. As you look around your landscape, which of your favorite flowering shrubs would make a great hedge?

**Planting Tip:** When spacing plants for a hedge, err on the smaller end of the spacing recommendation to form a solid hedge with no gaps between plants. For instance, if the recommended spacing is 3-5 feet, space the centers three feet apart for a hedge.

Learn more about selecting, planting and caring for flowering shrubs as splendid hedges at pwwin.rs/splendid-hedges.

It's a sure thing.
Given all the tensions in life, sometimes you just need products and plants that are going to work. Period. It's an easy decision to choose a self-watering AquaPot that takes the worrying out of watering, or our premium plant foods that provide everything your plants will need to thrive. Using our handy Twist 'n Plant® garden auger makes planting fast and fun. Starting with award-winning plants is a guaranteed win, too. You have the challenges, Proven Winners has the solutions. Let's do this!

Discover more Proven Beauty at beauty.provenwinners.com
Like the ideas you see in this Gardener’s Idea Book? Then you will love Proven Beauty, our specialty website for gardening inspiration, how-tos, recipes and more. There, you will find extended information and photos for many of the topics you see in this book. While browsing the site, take a moment to scroll through loads more fab ideas from our previous idea books. You’ll find everything from planning an outdoor wedding to schematics for building your own planter boxes, projects for children, holiday-themed crafts and so much more.

Planting tips.

1. Place the plant in the hole, long with the saucer.
2. Add plant food to the planting hole.
3. Put down soil around the plant.
4. Water over the soil is moist.
5. Make soil level with the saucer.
6. Replant the plant from its saucer.
7. Use plant tag for care instructions and the best place to plant.
