Did you notice the tips throughout this book? We invite you to delve deeper into those topics on our Proven Beauty site. There, you'll find in-depth garden guides, planting plans, DIY projects and a wealth of inspiration including many projects from our Gardener’s Idea Books through the years. There's something for everyone at beauty.provenwinners.com.
SUPERTUNIAS HAVE SUPERPOWERS!

Bring on instant summer with Supertunia petunias! There's no easier way to bring vibrance to your patio pots and garden beds than to fill them with these exuberant annuals.

Here, we've used several colors from our Supertunia Mini Vista line to create vigorous, dense masses of color in what was once an underutilized space in the landscape. Their more tightly mounded, fuller shape eliminates the need for trimming up overreaching stems. Plus, like all Supertunias, you won't have to spend your summer pinching off spent blossoms to keep them coming all the way into fall. Where could you use some of Supertunia's superpowers?
Rockin’ Rush
1. GOLDILOCKS ROCKS® Bidens
2. SUPERTUNIA® RASPBERRY RUSH™ Petunia
3. SUPERBENA® WHITEOUT™ Verbena
4. GRACEFUL GRASSES® ’Sky Rocket’ Pennisetum

AquaPots® Techno White Flat Rim Round Planter – 16”

Learn more about how to plant and tend the Recipes of the Year at pwwin.rs/2023natrecipes.

Acapulco Sun
1. SUPERBELLS® Coralina Calibrachoa
2. SUPERTUNIA® BERMUDA BEACH® Petunia
3. SUPERBENA® Peachy Keen Verbena
4. STRATOSPHERE™ White Gaura

Misty Seas

2. SUPERTUNIA MINI VISTA® Violet Star Petunia
3. SUPERTUNIA MINI VISTA® White Petunia
4. GRACEFUL GRASSES® BLUE MOHAWK® Juncus

SUPERTUNIAS HAVE SUPERPOWERS!

Bring on instant summer with Supertunia petunias! There’s no easier way to bring vibrance to your patio pots and garden beds than to fill them with these exuberant annuals.

Here, we’ve used several colors from our Supertunia Mini Vista line to create vigorous, dense masses of color in what was once an underutilized space in the landscape.

Their more tightly mounded, fuller shape eliminates the need for trimming up overreaching stems. Plus, like all Supertunias, you won’t have to spend your summer pinching off spent blossoms to keep them coming all the way into fall. Where could you use some of Supertunia’s superpowers?
Though we can’t all live on the sunny side of the street, your front porch and garden can certainly be just as lush and lovely as your neighbors’ if you choose your plants wisely. Shade-loving annuals in rich purple, crisp white and emerald green tones comprise the sophisticated color palette for this east-facing home.

Varieties that enjoy being awakened by the morning sun like sweet potato vine, impatiens and purple spiderwort are set out in front of this porch, while those that can handle more shade are tucked up closer to the house.

Swapping at least a few of your containers for self-watering AquaPots® like the Techno White style you see here will cut down on the time needed to water. That’s especially important when you have numerous pots to care for.
SOPHISTICATED SHADE

Though we can’t all live on the sunny side of the street, your front porch and garden can certainly be just as lush and lovely as your neighbors’ if you choose your plants wisely. Shade-loving annuals in rich purple, crisp white and emerald green tones comprise the sophisticated color palette for this east-facing home.

Varieties that enjoy being awoken by the morning sun like sweet potato vine, impatiens and purple spiderwort are set out in front of this porch, while those that can handle more shade are tucked up closer to the house.

Swapping at least a few of your containers for self-watering AquaPots® like the Techno White style you see here will cut down on the time needed to water. That’s especially important when you have numerous pots to care for.

Above in the landscape: HEART TO HEART® ‘White Star’ Caladium, FIRE LIGHT® Hydrangea paniculata (Panicle Hydrangea), COLORBLAZE® NEWLY NOIR™ Plectranthus (Coleus), Persian Shield Strobilanthes, CATALINA® GRAPE-O-LICIOUS™ Torenia (Wishbone Flower), SUMMER WAVE® Large Amethyst Torenia (Wishbone Flower), SUMMER WAVE® Large Blue Torenia (Wishbone Flower) and ‘Purple Queen’ Tradescantia (Purple Spiderwort).

Above in containers: PEGASUS® Begonia, SUREFIRE® White Begonia, ENDLESS® Variegated Acalypha (Basket Plant), SUNBURST® Caladium, Spider Plant, DIAMOND SNOW® Euphorbia (Euphorbia), HIPPO® White Hypoestes (Polka Dot Plant), ROCKAPULCO® Purple Impatiens (Double Impatiens), SUMMER WAVE® Large Amethyst Torenia (Wishbone Flower), SUMMER WAVE® Large Blue Torenia (Wishbone Flower), INFINITY® Light Purple New Guinea Impatiens, Sweet Caroline RAVEN™ Ipomoea (Sweet Potato Vine), COLORBLAZE® TORCHLIGHT® Plectranthus (Coleus), COLORBLAZE® NEWLY NOIR™ Plectranthus (Coleus), SUMMER WAVE® Large Amethyst Torenia (Wishbone Flower), SUMMER WAVE® Large Blue Torenia (Wishbone Flower) and ‘Purple Queen’ Tradescantia (Purple Spiderwort).
ALL SET FOR GUESTS

Your efforts in prepping your porch won’t go unnoticed when your friends and neighbors gather for some fellowship and fun. Leave room for comfy seating to encourage them to stay awhile. It’s time to reconnect and share stories again. Conversation flows freely in beautiful spaces like this where all are welcome.

If your front porch is shaded, take note of these flowers and foliage plants to fill your containers this season.

AquaPots® Techno White Flat Rim Round Planter – 16”

Part sun or shade
At left and opposite in landscape and containers: GRACEFUL GRASSES® ‘Ogon’ Acorus (Golden Variegated Sweet Flag), GOLDEN BUTTERFLY® Argyranthemum, (Marguerite Daisy), CAMPFIRE® Flame Bidens, HEART TO HEART® ‘Burning Heart’ Caladium, LADY GODIVA® Orange Calendula (English Marigold), LADYBIRD® Lemonade Calylophus (Texas Primrose), LADYBIRD® Sunglow Calylophus (Texas Primrose), TOUCAN® Scarlet Canna (Canna Lily), HEAT IT UP® Yellow Gaillardia (Blanket Flower), HEAT IT UP® Scarlet Gaillardia (Blanket Flower), SUPERTUNIA® BLACK CHERRY® Petunia, SUPERTUNIA® HONEY™ Petunia, SUPERTUNIA® Persimmon Petunia, COLORBLAZE® WICKED HOT® Plectranthus (Coleus), COLORBLAZE® MINI ME™ Watermelon Plectranthus (Coleus) and LEMON CORAL® Sedum

Opposite, outlined from left to right: COLORBLAZE® MINI ME™ Watermelon Plectranthus (Coleus), LUSCIOUS® Basket TANGELO™ Lantana, HEART TO HEART® ‘Burning Heart’ Caladium, SUPERTUNIA® BLACK CHERRY® Petunia, SUPERTUNIA® HONEY™ Petunia, and SUPERTUNIA® Persimmon Petunia

MAKE THE MOST OF YOUR FRONT YARD

Why should your front landscape be just for looks? In a time when many homeowners have repurposed their formal living room, our front yards are now becoming more functional, too. They are a place to play, gather and express your style.

The front yard of this Sears, Roebuck and Company kit house built by the owner’s grandfather is planted up with lively shades of red, orange and gold – the perfect palette to match this young family’s energy. Sun loving, heat tolerant plants fill the beds with non-stop color that’ll last well-past when school’s back in session.

Find more sun-loving plants for front yards at pwwin.rs/sun-loving-plants.

INFUSE YOUR LIFE WITH COLOR

When you step into Tracy’s magical garden, you immediately feel the positive energy that fills this place – a feeling matched by her enthusiasm for striking colors and bold patterns. Playing with our Annual of the Year, Truffula Pink gomphrena, as one of her “crayons”, she styled her garden beds which welcomed pollinating bees, butterflies and skippers of all kinds all summer long. Large pots for setting on the patio or poolside are perfect for these whimsical flowers, too.

Learn how to grow our Annual of the Year as beautifully as Tracy does at pwwin.rs/npoy.

“The garden feels like a new art project to me every spring and all the flowers are like a big box of crayons.”
– Tracy of @plaids.and.poppies

They say that all gardens are a form of autobiography. What does your garden say about you? If you've seen the gardens of Laura of @Garden Answer, you know they are crafted from the heart. She surrounds her family's home with beauty, warmth and inviting colors and yes – even heart-shaped plants like Heart to Heart® 'Scarlet Flame' caladiums. Since they grow just as nicely in sun and shade, their showy leaves bring a bright pop of color to garden beds, raised beds and containers set anywhere in the landscape.

The most important thing to know if you've never grown caladiums is that they are tropical plants which absolutely adore steamy hot weather. Plant them after the coldest days of spring have passed and they'll sprout quickly in your warm, moist soil.

Find more growing tips for our Caladium of the Year at pwwin.rs/2023-caladium.

CONTAINER HACK: PERENNIALS WITH CONSTANT COLOR

How often have you wondered if there is a perennial equivalent for your favorite flowering annual? It’s a question we receive often, so here’s a trick to try. Hardy plants like coral bells that come in splashy shades of royal purple, pumpkin spice and sunshine gold, as well as showy hostas, will give you the non-stop color you’re going for in your containers and landscape.

Pro Tip: Do you garden in heavy, wet clay? Try growing your hostas and coral bells in containers instead of in the ground. If voles are an issue, line the bottom of the pot with ¼” galvanized steel hardware cloth to keep the critters out. In late fall, move the pots into an unheated garage or covered outdoor space so they can get their winter’s rest.

Find planting and growing tips for our perennial National Plants of the Year at at pwwin.rs/npoy.

Learn the ins ‘n outs of overwintering perennials in containers at at pwwin.rs/perennial-tips.

SHRUBS DESIGNED TO FIT YOUR GARDEN GOALS

We get it! We love to garden just like you and want the same things out of what we grow: colorful plants that offer months of blooms for pollinators and cultivars that don’t require expert knowledge to prune and maintain properly. These traits and many more are always top of mind when we are hybridizing, trialing and selecting new shrubs. See how each of the award-winners pictured here was designed to fit your garden goals.

RINGO ALL-STAR®
Rosa (Rose)

All Summer Color
Offers an ever-changing parade of blossoms ranging from mallow to lavender without even having to clip off the spent flowers. The crown of fluffy yellow anthers is easily accessible by pollinating bees.

Height: 2-3’ Spread: 2’ Zones: 3-8

ROSE OF THE YEAR

LIMELIGHT PRIME®
Hydrangea paniculata (Panicle Hydrangea)

No Staking Needed
No need to worry about summer storms weighing down the huge blossoms of this robust hydrangea. Spend your time enjoying the view instead! Perfect for making a tidy 4-6’ tall hedge.

Height: 4-5’ Spread: 4-5’ Zones: 3-8

LETS DANCE CAN DO!®
Hydrangea macrophylla x serrata (Reblooming Hydrangea)

No Staking Needed
This unique hydrangea will recover and rebloom quickly no matter when you trim it. Better yet, leave it be and it’ll produce continuous waves of blooms from early summer through fall.

Height: 3-4’  Spread: 3’  Zones: 4-9

Extraordinary Rebloomer

PURPLE PILLAR®
Hibiscus (Rose of Sharon)

Fits in Tight Spaces
That narrow bed you’ve been struggling to fill? This shrub naturally keeps its narrow columnar shape that is just 2-3’ wide and speckled with colorful blossoms all the way up its canopy.

Height: 10-16’  Spread: 2-3’

Zones: 5-9

LIVE LIFE IN PERFECT HARMONY

Have you ever noticed how, when you are surrounded by plants, your worries tend to fall away and your mood is brighter? It’s not just in your mind – peer-reviewed studies have shown that plants really do provide tangible benefits to our health and well-being like:

Reducing Stress. The simple acts of giving your plants a deep drink of water and plucking off their brown leaves gives people a positive way to channel their stress and frustrations into something life-giving.

Generating Happiness. Studies show that people who keep plants or flowers in their home feel happier, more relaxed, and have a more positive outlook on life.

Improving Relationships. Nurturing plants has a natural correlation to nurturing our relationships with one another. People who spend time caring for plants are more likely to care for people, too.

Feeling More Alive. When our worries are drowned by the beauty of nature, our feeling of vitality returns and we find ourselves having more energy.

Accelerating Healing. Some plants possess tremendous healing properties. The simple act of being in the presence of plants has been shown to reduce the time needed to heal.

Wouldn’t you love to help someone live their life in harmony with nature?

Next time you visit, bring them a new plant. Stay awhile and help them water their houseplants or tend to the flowers in their garden. The garden therapy will benefit you both!

Learn more about all of our leafjoy varieties at pwwin.rs/leafjoy.

LEAFJOY™ worklife™ COLLECTION

Space-saving plants for desks, shelves and tabletops

When space and time are at a premium, choose these low-maintenance, compact and vertical plants to occupy just a sliver of your work desk, bookshelf or tabletop.

WorkLife Collection Highlights:

- MYTHIC™ Nessie Alocasia x amazonica
- LIVING LACE™ Hurricane Asplenium
- MYTHIC™ Silver Dragon Alocasia
- MYTHIC™ Stingray Alocasia
- COLOR FULL™ Beauty Star Calathea
- TATTOO™ Princess Clusia
- CHROMA™ Belze Ficus
- CLING-ON™ Danielle Ficus
- PRISMACOLOR™ Birkin Philodendron

LEAFJOY™ atrium™ COLLECTION

High-light plants for bright spaces

Lovers of bright, airy, south- or west-facing rooms, these plants enjoy basking in the sun streaming in through windows. To accommodate, take them on a siesta to relax with you on your patio.

Atrium Collection Highlights:

- MYTHIC™ Buddha’s Palm Alocasia cucullata
- MYTHIC™ Tiffany Alocasia
- MYTHIC™ Jehovah’s Plant Aspidistra
- MYTHIC™ Heavenly Hosta
- TATTOO™ Princess Clusia
- CHROMA™ Abidjan Ficus
- CHROMA™ Belize Ficus
- African Fig Ficus
- African Fig Ficus
- PRISMACOLOR™ Birkin Philodendron

LEAFJOY™ spascene™ COLLECTION

Plants for warm, humid spaces

Warm air filled with humidity keeps the leaves of these plants looking fresh and radiant. The spa-like atmosphere of powder rooms, sunporches or even the window sill behind your kitchen sink are all ideal locations.

SpaScene Collection Highlights:

- MYTHIC™ Dragon Scale Alocasia
- MYTHIC™ Frydek Alocasia
- MYTHIC™ Ninja Alocasia
- MYTHIC™ Stingray Alocasia
- COLOR FULL™ Dottie Calathea
- COLOR FULL™ Peacock Plant Calathea makoyana
- SWEET DREAMS™ Grey Star Ctenanthe
- LIVING LACE™ Davana Phlebodium
- PRISMACOLOR™ Fern-like Philodendron

LEAFJOY™ cocoon™ COLLECTION

Low-light plants for calming spaces

These plants are homebodies, preferring to spend their time in the lower light levels of interior rooms or those with smaller windows. Their sanctuary is a room that faces north or east.

Cocoon Collection Highlights:

- MYTHIC™ Ninja Alocasia
- COLOR FULL™ Freddie Calathea
- COLOR FULL™ Sanderiana Calathea
- SWEET DREAMS™ Amagris Ctenanthe
- LIVING LACE™ Davana Phlebodium
- LIVING LACE™ Hurricane Asplenium
- CHROMA™ Tineke Ficus
- CHROMA™ Moclame Ficus

When the world starts to feel like a never-ending cycle of stress and obligations, you need a place to escape from it all. You won’t have to go far or spend a lot of money to get there. A special place devoted to regaining balance can be as close as your own backyard.

A once-underutilized space in the garden you see here was transformed in the style of a Japanese-style tatami room — a traditional place to gather and share tea, study and rest. Here, you’ll sit at a low table set on a thick, woven mat with your shoes off and bathe yourself in the natural beauty that surrounds you. A simple neutral palette of black, white and chartreuse minimizes distractions and helps to clear your mind of the day’s stressors.

Be inspired to create a space that will ground you in nature and find our container trellising guide at pwwin.rs/trellis.
When the world starts to feel like a never-ending cycle of stress and obligations, you need a place to escape from it all. You won’t have to go far or spend a lot of money to get there. A special place devoted to regaining balance can be as close as your own backyard.

A once-underutilized space in the garden you see here was transformed in the style of a Japanese-style tatami room—a traditional place to gather and share tea, study and rest. Here, you’ll sit at a low table set on a thick, woven mat with your shoes off and bathe yourself in the natural beauty that surrounds you. A simple neutral palette of black, white and chartreuse minimizes distractions and helps to clear your mind of the day’s stressors.

Be inspired to create a space that will ground you in nature and find our container trellising guide at pwwin.rs/trellis.
MAXIMIZE YOUR SMALL SPACE

Container gardening opens up a world of opportunities for those with a huge love for plants but small outdoor spaces. Consider these three scenarios – the first, where an entire garden is packed into a small nook, an upper patio with a city view, and a compact deck you might find at a rental. See how each is completely transformed by the festive flair and vitality of the plants?

Consider your water source in your planning. Self-watering AquaPots are ideal for patios without a hose hookup nearby or use drought tolerant plants like lantana and euphorbia which don't require daily watering. Lightweight containers are ideal for rooftops and renters.

CREATE AN OFFICE WITH A VIEW

Here’s a chance to give yourself that corner office with the calming view you’ve been wishing for. Let’s create a flexible indoor/outdoor room where you will be inspired to do your best work from 9 to 5 and an inviting patio where you can relax at the end of the day.

It’s been shown that work performed in the presence of plants boosts accuracy and memory by helping you focus. By maintaining a separate workspace – even if it’s just a few steps away on the sun porch – you can mentally step away from home and prepare to be productive each morning. At the end of the day, close your office door, step out into the sunshine, and venture out into the garden to unwind.

At the end of the day, close your office door, step out into the sunshine, and venture out into the garden to unwind.
MAKE GOING TO WORK FUN!

Wouldn’t you love to work here? This vibrant take on an outdoor office strikes a balance between having a quiet place to gather your thoughts and a place where your creative spirit will be rekindled by the vivid colors, textures and scents of tropical plants. A space like this will keep you motivated to work even though you haven’t left home.

Several Alocasias that spend their winters indoors as houseplants are repurposed in these containers as focal points and will be brought back inside in the fall. A supporting cast of part shade-loving caladiums, begonias, Swedish ivy and others round out the combinations for the summertime.

CONSIDER THESE DETAILS BEFORE MOVING YOUR OFFICE OUTDOORS:
1. Choose a covered spot in case of rain and to cut the sun’s glare on your computer screen.
2. Find a spot where the Wi-Fi signal is strong if internet access is needed.
3. Outdoor lighting works well for Zoom calls but consider your backdrop.
4. Use a chair with wheels, portable laptop and multipurpose table if working in a flex space.

GREENHOUSE REIMAGINED

Once you’ve been bitten by the plant collector bug, you may find yourself wishing for a greenhouse. We wanted to see how well the DIY kits work, so we tried this relatively inexpensive hobby greenhouse kit by Palram. It turned out to be a perfect fit for this understated, protected space between the house and garage.

During the winter months, it will be chock full of plants that need to be kept out of the cold. But from spring through fall, it can be anything you want it to be— an art studio, a place to enjoy your morning coffee, or a propagation station perhaps. It also makes an ideal backdrop for a stylish grouping of container plants.

The entertaining chickadees that frequent your bird feeder are fun to watch, but they also play a key role in keeping the environment healthy. In exchange for food and shelter, birds provide us with free pest control services and fertilizer. They help to balance the food chain by taking care of mice, moles, voles and insects that multiply rapidly. You’ll need fewer pesticides when birds do that important work for you.

**BIRD-FRIENDLY BACKYARDS INCLUDE FOUR VITAL ELEMENTS:**

1. **Food** – Native plants like winterberry, false sunflower, coneflower and false indigo are nature’s own bird feeders. Blueberries and juniper berries are quickly consumed in summer and fall.

2. **Water** – Keep your bird baths clean to maintain a reliable source of fresh water for drinking, bathing and cooling off.

3. **Shelter** – Dense deciduous and evergreen shrubs like arborvitaes, junipers and elderberries in addition to grasses, tall ferns and trees give birds a place to safely hide and find shelter in inclement weather.

4. **Place to rear young** – In addition to nesting in native trees and shrubs, birdhouses that have good ventilation, adequate drainage and can easily be cleaned out will all support local bird populations.

Find our recommendations for landscape plants that birds love at pwwin.rs/bird-friendly.

Peanut butter and jelly, chips ‘n dip, hot cocoa and marshmallows… some things are just better together. That’s what you’ll find when you pair the perennials and shrubs you see pictured here.

The most important thing to remember when matching plants up is their sun, soil and water needs should align. For instance, group plants that thrive in rich, moist woodland conditions together. Then, find a much sunnier spot where the soil never stays wet for long for plants like butterfly bush and catmint which will flourish there.

**LUMINARY™ ‘Opalescence’ Phlox (Tall Garden Phlox) – Zones: 3-8**

Best in full sun, sandy or loam soils. (Phlox handles clay), light to moderate moisture

**INVINCIBELLE LACE® Hydrangea arborescens subsp. radiata (Smooth Hydrangea) – Zones: 3-8**

Best in full sun, tolerates light shade, sandy to clay soils, moderate moisture

**COLOR CODED® ‘One in a Melon’ Echinacea (Coneflower) – Zones: 4-8**

Best in full sun, sandy or loam soils. (Echinacea handles clay), light to moderate moisture

**COLOR CODED® ‘One in a Million’ Echinacea (Coneflower) – Zones: 4-8**

Best in full sun, sandy or loam soils. (Echinacea handles clay), light to moderate moisture

**LO & BEHOLD RUBY CHIP® Buddleia (Butterfly Bush) – Zones: 5-9**

Best in full sun, sandy or loam soils, light to moderate moisture

**‘Serendipity’ Allium (Ornamental Onion) – Zones: 4-8**

Best in full sun, sandy or loam soils (Allium handles clay), light to moderate moisture

**VINHO VERDE™ Weigela – Zones: 5-8**

Best in full sun, sandy or loam soils, light to moderate moisture

**‘Jack of Diamonds’ Brunnera (Heartleaf Brunnera) – Zones: 3-8**

Best in full or part shade, any well-drained soil, moderate moisture

**SPRINTER® Buxus (Boxwood) – Zones: 5-9**

Best in full or part shade, any well-drained soil, moderate moisture

**SHADOWLAND® ‘Miss America’ Hosta – Zones: 3-9**

Best in full or part shade, any well-drained soil, moderate moisture

**FIZZY MIZZY® Itea (Sweetspire) – Zones: 5-9**

Best in full or part shade, sandy, loam or clay soils, moderate moisture

**ROCK ‘N GROW® ‘Back in Black’ Sedum (Stonecrop) – Zones: 3-9**

Best in full sun, sandy or loam soils, light to moderate moisture

**Magenta CHIFFON® Hibiscus (Rose of Sharon) – Zones: 5-9**

Best in full sun, sandy or loam soils, light to moderate moisture

**COLOR CODED® ‘One in a Million’ Echinacea (Coneflower) – Zones: 4-8**

Best in full sun, sandy or loam soils. (Echinacea handles clay), light to moderate moisture

**‘Cat’s Pajamas’ Nepeta (Catmint) – Zones: 3-8**

Best in full sun, sandy or loam soils, light to moderate moisture

**KODIAK FRESH® Diervilla – Zones: 3-8**

Best in full sun, sandy or loam soils. (Echinacea handles clay), light to moderate moisture

**ROCK ‘N GROW® ‘Back in Black’ Sedum (Stonecrop) – Zones: 3-9**

Best in full sun, sandy or loam soils, light to moderate moisture

RESOLVE THE SUN/SHADE DILEMMA

A tricky situation to master happens when an unmovable object like your house or a tall fence creates a sharp delineation between sun and shade in a garden bed. You might have both extremes within just a few feet. That’s the case with this north-facing mid-mod ranch. The front of this border and pot to the left of the bench see 6+ hours of sun each day, while the plants and planters closest to the house receive little to no direct sun.

A cohesive look is achieved by choosing plants which all fall within the same color palette but whose lighting needs match their location. Those positioned in the transition area between sun and shade, like coleus, sweetspire and sweet potato vines, thrive equally under both conditions.

---

**Full shade container, above at left:** PEGASUS® Begonia, ROCKAPULCO® Wisteria Impatiens, CHARMED® Wine Oxalis (Shamrock) and COLORBLAZE® Strawberry Drop Plectranthus (Coleus)

**Full sun container above at right:** Goldilocks Lysimachia (Creeping Jenny), GRACEFUL GRASSES® Purple Fountain Grass Pennisetum, SUPERTUNIA VISTA® Fuchsia Petunia, ROCKIN’® Deep Purple Salvia and METEOR SHOWER® Verbena

**Full shade planter under roof line above:** HEART TO HEART® ‘Xplosion’ Caladium, ROCKAPULCO® Wisteria Impatiens, ROCKAPULCO® Purple Impatiens, SUMMER WAVE® Large Violet Torenia (Wishbone Flower) and ROCKAPULCO® Alpinia

---

A PARADE OF PERENNIALS

Just as it takes a fine bourbon time to age to lip-smacking perfection, growing a perennial garden where something is always in bloom is a curated work of art. You’ll find there are bits and pieces to tweak every year, and the joy lies in that journey. This chart which lists the bloom times for each of our perennials will get you started down that garden path. Choose a few from each of the color-coded seasons to create a parade of color in your landscape.

Proven Winners Plant Foods –
Give your plants everything they need to thrive by feeding them with our premium continuous release and water soluble plant foods. Formulated specially for our plants, they contain all of the essential macro and micro nutrients. The addition of EDDHA iron in our water soluble formula keeps your plants happy and healthy.

Proven Winners Potting Soil –
Our professional grade, all-purpose potting soil contains a blend of Canadian sphagnum peat moss, softwood bark and perlite, creating the ideal texture for container plants. This lightweight bagged soil isn't a chore to lift and is well-drained to aide in maintaining good plant health.

Twist 'n Plant®
Now available in four sizes, our augers make fast and fun work of planting annuals, perennials, shrubs and bulbs. 100% solid steel construction ensures this tool won't warp or bend, even in heavy soils, and it comes with a lifetime guarantee.

WaterWise®
Delivers the right amount of moisture to plants in window boxes and patio planters without waste. Each kit includes enough supplies to water ten pots from a single faucet. Up to three kits may be combined if needed.

Ceramic AquaPots®
Handcrafted by artisans using the finest clays and vivid glazes, these premium quality self-watering containers represent the gold standard available today. Each container has the self-watering system integrated right inside, delivering a flawless performance.

AquaPots Lite™ Collection –
New this year, a selection of more budget-friendly, lightweight AquaPots in faux stone and ceramic-like resin finishes pair with our new AquaPots Insert to make them self-watering. These will be available at garden centers this season.

AquaPots® Self-Watering Insert –
Our new AquaPots Insert converts your own planters into AquaPots. It fits many planters in a range of sizes and pairs perfectly with our curated line of AquaPots Lite planters. An optional square adapter is available for square planters.

5 WAYS TO GARDEN MORE SUSTAINABLY:
1. Seek out Proven Winners grown in our plant-powered, fully compostable Eco+ Grande™ containers. They’re made from starchy renewable plants grown in the U.S. and have organic nutrients built right in to feed your flowers.
2. Recycle your branded white containers which are easily recognized by modern recycling equipment. Our black-lined containers are made with a minimum of 30% recycled materials. All Proven Winners plastic containers are 100% recyclable.
3. Limit your water usage by up to 75% when you use our self-watering AquaPots®. WaterWise® drip irrigation also conserves water and can be set to an automatic timer.
4. Eliminate wasteful runoff by installing a rain garden using native plants. This project can be done in a weekend and will have a huge impact. Rain gardens prevent excess water, fertilizer and debris from entering your city sewers and ending up in nearby lakes, rivers and streams.
5. Buy local. Limit your carbon footprint buy purchasing your plants at your local independent garden centers. They are supplied by nearby growers or grow their own plants, which limits transportation and carbon emissions.

We believe plant-powered packaging is the future. That’s why we’ve partnered with one of the most innovative container manufacturers in the U.S. to develop our Eco+ Grande container. It’s made from plants for plants, using a small portion of the starch from corn kernels. If one of your goals is to garden more sustainably, we’re here to join you on that mission. Together, we can all make an impactful difference.

Use our Find a Retailer tool at pwwin.rs/find-retailer to locate a store near you that is offering plants in our Eco+ Grande container this year.
