Ornamental Grasses & Sedges

Warm Season Grasses
Warm season grasses grow most actively during the warmer months, then flower in late summer or fall. Most go completely dormant in winter. Warm season grasses are not recommended for fall planting. It is best to receive them from early spring through late summer and pot them up immediately. If necessary, provide supplemental heat to keep the plants at 60°F or higher to stimulate top growth. Warm season grasses include: Andropogon, Calamagrostis brachytricha, Hakonechloa, Miscanthus, Panicum, Pennisetum, Schizachyrium, and Sporobolus.

Cool Season Grasses
Cool season grasses are at their prime during the cooler months of fall, winter, and spring, and usually bloom before the warmer summer weather arrives. Many are evergreen. Cool season grasses should be received in fall or early spring and be potted up immediately. They will put on the most growth during these cooler months. Though they should be kept from freezing over the winter, they do not require much, if any, supplemental heat. Cool season grasses include: Calamagrostis acutiflora, Deschampsia, Festuca, and Helictotrichon.

Sedges
Sedges, or Carex, are not true grasses at all, though they certainly look similar. They are actually members of the Cyperaceae family, which includes about 4,000 species worldwide. We offer several varieties of Carex, including variegated and yellow varieties, ground cover and clumping types. Sedges tend to grow more like warm season grasses, so we recommend receiving them from early spring through late summer rather than in the fall.

30ct Grass Plugs - New for 2017!
In 2017, we are converting the majority of our large grass plugs to a new 30ct tray. The new tray features a significantly deeper, more cost-effective plug size. We anticipate the deeper plug will give you improved quality and similar performance to our 20ct, all at a lower price point.

Approximate Plug Measurements: 4¼in deep x 2in wide
Minimum order: 1 tray of 30
**Andropogon gerardii**
*‘Indian Warrior’ PP24999*
ANDIW30 (Big Bluestem) This long-lived grass forms a tall, strictly upright clump of green foliage that transitions to red then smoky purple beginning midsummer. Deep purple flowers with bright red-orange pollen. From Brent Horvath. 5-6ft/LSu/Z3-9/30ct
Asexual propagation prohibited.

**Calamagrostis acutiflora**
*Avalanche*
CALAV30 (Variegated Feather Reed Grass) Variegated form of ‘Karl Foerster’. Deep green leaves with a wide, white stripe down the center. Distinctly upright, clumping habit. Excellent for screening or the back of the garden. 4-5ft/ESu/Z4-8/30ct

**Calamagrostis acutiflora**
*Karl Foerster*
CALKFG1, CALKF30, CALKF72 (Feather Reed Grass) A cool season, clumping grass. Compact, erect growth habit. Wheat-like seed heads appear in late spring and last all season long. Does not reseed. 5ft/LSp/Z4-8/G1, 30 & 72ct

**Calamagrostis acutiflora**
*Overdam*
CALOV30, CALOV72 (Variegated Feather Reed Grass) Variegated foliage has bright creamy-white margins which turn white with a pink flush. Strikingly erect, feathery plumes turn tan as they age. 5ft/LSp/Z4-8/30 & 72ct

**Calamagrostis brachytricha**
CALBR30 (Korean Feather Reed Grass) Unlike *C. acutiflora*, this is a warm season grass that blooms later in the summer, even in part shade. Purplish red, fluffy bottlebrush plumes age to greenish tan. Offers rare height for a shade tolerant grass. From Plant Select®. 4ft/LSu-EFa/Z4-9/30ct

**Carex elata**
*‘Bowles Golden’*
CARBG30 (Gold Sedge) Bright gold foliage with thin green margins. This selection is taller than most other sedges. It needs consistent moisture to thrive. It will grow in shallow water or in garden beds that are watered regularly. 2-3ft/Z5-8/30ct

**Carex morrowii**
*‘Ice Dance’*
CARID30 (Variegated Sedge) Dark green leaves with bright white edges measure ¼ to ½ inch across. Grows in nearly full sun to shade in average to moist soil. A slow to moderate spreader that can be used as a groundcover or in containers. 12-16in/MSp/Z5-9/30ct

**NEW! Carex oshimensis**
*EVERCOLOR® ‘Everillo’ PP21002*
CAREO30, CAREO72 (Japanese Sedge) Sport of ‘Evergold‘. Similar performance to its parent but with a solid gold leaf color. Long, thin arching leaf blades are chartreuse green toward the crown, but turn gold as they are exposed to UV light. Short, tan inflorescence appears just above the foliage. 10-12in/Z5-9/30 & 72ct
Asexual propagation prohibited.

---

*Carex elata ‘Bowles Golden’*  
*Carex morrowii ‘Ice Dance’*  
*Carex oshimensis EVERCOLOR® ‘Everillo’ PP21002*  

---

*x/x/x/x = foliage height / scape height (where applicable) / bloom time / zone / size offered*
**Carex oshimensis ‘Evergold’**
CAREV30, CAREV72 (Variegated Japanese Sedge) This versatile sedge is beautiful as a spiller in containers, rock gardens, and landscapes. Forms a cascading clump of narrow, creamy yellow leaves with dark green edges. Spreads slowly by rhizomes. Insignificant blooms. Very easy to grow.
1ft/Z5-9/30 & 72ct

**Carex siderosticha ‘Banana Boat’**
CARBB30, CARBB72 (Creeping Broad-leaved Sedge) This showy broad-leaved, deciduous sedge lights up the shade garden with its wide, bright lemon to banana yellow and green striped leaves. Creeps slowly to form a dense mass of bold foliage. Insignificant flowers.
6-12in/LSp/Z5-9/30 & 72ct

**Carex siderosticha ‘Snow Cap’**
6-8in/Z5-9/30ct

**NEW! Deschampsia cespitosa ‘Northern Lights’**
DESNL30 (Tufted Hair Grass) Thin green leaves have narrow creamy white margins with the variegation taking on very subtle pink-blush tone in cooler temperatures. Light green seed heads pop up slightly above the foliage and age to tan. Best in full sun but tolerates light shade.
12in/MSu-EFa/Z4-9/30ct

**Hakonechloa macra ‘All Gold’**
HAKAG30, HAKAG72 (Hakone Grass) Brilliant solid gold foliage glows in the shade. Compared to ‘Aureola’, this variety has a more upright habit and increased vigor. Spreads slowly by rhizomes but is not invasive. Reddish brown flowers.
9-14in/LSu-EFa/Z5-9/30 & 72ct

**Festuca glauca ‘Blue Whiskers’ PPAF**
WGI Introduction
FESBW30, FESBW72 (Blue Fescue) Taller and more vigorous than ‘Elijah Blue’, with longer leaves and a brighter, silvery blue foliage color. Forms a fully rounded, robust clump with consistent flower coverage. Yellow-green flowers age to tan as the season progresses.
10-12in/ESu-MSu/Z4-8/30 & 72ct
Asexual propagation prohibited.

**Festuca glauca ‘Elijah Blue’**
FESEB30, FESEB72 (Blue Fescue) Soft powdery blue, spiky foliage forms a rounded clump and keeps its color all year. Small, wheat-like seed heads. One of the most durable and long-lived varieties.
8-10in/ESu-MSu/Z4-8/30 & 72ct

**Hakonechloa macra ‘All Gold’**
HAKAG30, HAKAG72 (Hakone Grass) Brilliant solid gold foliage glows in the shade. Compared to ‘Aureola’, this variety has a more upright habit and increased vigor. Spreads slowly by rhizomes but is not invasive. Reddish brown flowers.
9-14in/LSu-EFa/Z5-9/30 & 72ct

Phone: 888-925-8377 • Fax: 800-752-1879 • E-mail: sales@waltersgardens.com • Website: www.WaltersGardens.com
Hakonechloa macra ‘Aureola’
HAKMA30, HAKMA72 (Golden Variegated Hakone Grass) Green and yellow variegated foliage forms a cascading clump like a golden waterfall. Reddish pink fall color. Spreads slowly by rhizomes but is not invasive.
1-2ft/LSu-EFa/Z5-9/30 & 72ct

Helictotrichon sempervirens
HELG1, HELSE30 (Blue Oat Grass) Dense clumps of blue-gray leaves gently spray upward and arch back downward at the tips. Small, tan seed heads appear on tall stems held well above the foliage. Resembles a tall Festuca.
24-30in/ESu/Z3-8/G1, 30ct

Imperata cylindrica ‘Red Baron’
IMPRB30, IMPRB72 (Japanese Blood Grass) Popular in the north where it spreads slowly by underground runners to form a thick patch of green leaves with striking blood red tips. Glows nearly all-red in fall; rarely flowers. Spreads more quickly in the south; care should be taken to control its spread there.
18-20in/Z5-9/30 & 72ct
See p. 203 for shipping restrictions on Imperata.

Miscanthus ‘Purpurascens’
MISPU30 (Flame Grass) Prized for its fantastic fall color, this upright clumping grass starts out grey-green and then takes on brilliant orange and red tones in late summer and fall. Purple plumes emerge in late summer and turn silky white.
4-6ft/LSu/Z4-9/30ct

Miscanthus sinensis ‘Autumn Anthem’ PP27411
WGI Introduction
MISAA30, MISAA72 (Miscanthus) Hybridized and selected for its heavy flower production and perfect habit. Forms a densely rounded clump of dark green leaves with a narrow, white midrib. Feathery, cream plumes are borne prolifically covering the top ⅔ of the plant. 5-5½ft/ESu-MFa/Z5-9/30 & 72ct
Asexual propagation prohibited.

Miscanthus sinensis ‘Encore’ PPAF
WGI Introduction
MISEN30, MISEN72 (Miscanthus) Perfect choice for northern climates. Earlier bloomer, with a secondary flush of coppery purple plumes before frost hits. Flowers turn to a creamy tan color with age. Forms a tall, upright clump of dark green leaves with white midribs. 6-6½ft/ESu-MFa/Z5-9/30 & 72ct
Asexual propagation prohibited.
**Miscanthus sinensis** ‘Gracillimus’
MISGM30, MISGM72 (Maiden Grass) Beautifully rounded mounds of fine, silver-veined, green leaves with an arching habit. Fan-like plumes emerge with a reddish tint, then age to a soft silvery-white and remain all winter.
5-6ft/EFa/Z5-9/30 & 72ct<br>Asexual propagation prohibited.

**Miscanthus sinensis** ‘Huron Sunrise’
MISHS30, MISHS72 (Miscanthus) The most profusely blooming Miscanthus. Full, burgundy plumes sweep the sky and remain standing through winter. Mid-green leaves with a silver midrib. From Martin Quinn.
5-6ft/LSu/Z4-9/30 & 72ct<br>Asexual propagation prohibited.

**Miscanthus sinensis** ‘Little Zebra’ PP13008
MISLZ30, MISLZ72 (Dwarf Zebra Grass) A popular grass, especially in northern regions, since it blooms reliably each year in late summer. Green leaves with distinctive gold banding form a round-ed, almost ball-shaped clump topped with reddish purple plumes.
3-4ft/LSu/Z5-9/30 & 72ct<br>Asexual propagation prohibited.

**Miscanthus sinensis** ‘Morning Light’
MISML30, MISML72 (Miscanthus) Distinctively elegant ornamental grass. Very narrow, finely textured leaves have a silvery green appearance and glow when backlit by the sun. Refined upright arching clump is topped with bronze red plumes which age to cream.
4-5ft/MFa/Z5-9/30 & 72ct

**Miscanthus sinensis** ‘Oktoberfest’ PP27074
WGI Exclusive
MISOK30, MISOK72 (Miscanthus) Improved ‘Graziella’; better fall color and early blooming. Forms a narrow, upright tower of wide, deep green leaves that develop deep purple and red highlights in late summer to early fall. Shimmering burgundy flowers turn creamy tan as they age. From Gary Trucks.
6-7ft/EFa/Z5-9/30 & 72ct<br>Asexual propagation prohibited.

**Miscanthus sinensis** ‘Strictus’
MISST30 (Porcupine Grass) Similar green and yellow banded foliage like ‘Little Zebra’ but a totally different habit. Spiky textured foliage grows strictly upright like porcupine spines, thus the name. Pinkish copper blooms in areas with long growing seasons.
4-6ft/EFa/Z5-9/30ct

**Panicum virgatum** ‘Blood Brothers’
NEW!
PANBB30, PANBB72 (Red Switch Grass) Blue-green leaves are overshadowed by wine purple coloration, forming a strictly upright habit of foliage. Tan flower heads appear in late summer. A sport of ‘Heavy Metal’. From Valleybrook Gardens.
36in/LSu/Z4-9/30 & 72ct

Phone: 888-925-8377 • Fax: 800-752-1879 • E-mail: sales@waltersgardens.com • Website: www.WaltersGardens.com
Panicum *virgatum* PRAIRIE WINDS® ‘Apache Rose’ PPAF

WGI Introduction
PANAR30, PANAR72 (Switch Grass) A shorter Panicum with unique rose-colored flower panicles instead of the typical cream or tan. Dense, upright, columnar habit with grey-green leaves. Tips of leaves are flushed with rosy-red in fall. 4ft/LSu/Z4-9/30 & 72ct

Asexual propagation prohibited. Proven Winners® label and container required. Recommended Finish Size: Premium 1-GL

Panicum *virgatum* PRAIRIE WINDS® ‘Cheyenne Sky’ PP23209

PANCS30, PANCS72 (Red Switch Grass) Petite red Panicum; ideal for containers. Forms a tight, vase-shaped clump of blue-green foliage that turns wine red in early summer. Purple flowers. From Gary Trucks. 3ft/LSu/Z4-9/30 & 72ct

All propagation prohibited. Proven Winners® label and container required. Recommended Finish Size: Premium 1-GL

Panicum *virgatum* PRAIRIE WINDS® ‘Totem Pole’ PPAF

WGI Introduction
PANTP30, PANTP72 (Switch Grass) A very upright column of steel blue foliage and powdery blue stems. In early fall, this plant explodes with golden seed panicles. The narrow base of the plant makes it ideal for small spaces in the garden. 6ft/LSu/Z4-9/30 & 72ct

All propagation prohibited. Proven Winners® label and container required. Recommended Finish Size: Premium 1-GL

Panicum *virgatum* ‘Blue Fountain’ PPAF

WGI Introduction
PANBF30 (Blue Switch Grass) A very tall grass that stays upright all season long. Blue-green leaves are very wide and strappy. Greenish-tan flower panicles are held on the top two-thirds of the plant, bursting out of the clump. 7ft/LSu/Z4-9/30ct

Asexual propagation prohibited.

Panicum *virgatum* ‘Heavy Metal’

PANHM30, PANHM72 (Blue Switch Grass) Handsome grass with stiff, metallic blue leaves that form a rigidly upright clump. Delicate pink panicles dance 12–16 in above the foliage. Turns bright yellow in the fall. 5-6ft/LSu/Z4-9/30 & 72ct
Panicum virgatum ‘Northwind’
PANNO30, PANNO72 (Upright Switch Grass) A dark green, rigidly upright, clumping grass. Unique flower panicles are held in the middle of the clump rather than arching away from it. Golden yellow foliage in fall. Fast grower. 5-6ft/LSu/Z4-9/30 & 72ct

Panicum virgatum ‘Prairie Fire’ PP19367
PANPF30 (Red Switch Grass) A tremendous improvement over older red Panicums. Blue-green foliage begins to turn wine-red by early summer. Rosy flower panicles appear just above the foliage. From Gary Trucks. 4-5ft/LSu/Z4-9/30ct

Asexual propagation prohibited.

Pennisetum alopecuroides ‘Burgundy Bunny’ PP21917
PENBB30, PENBB72 (Miniature Fountain Grass) This colorful, petite sport of ‘Little Bunny’ discovered at Walla Walla Nursery forms a rounded clump of green foliage that starts to turn red in summer. All-over blazing red fall color until frost. Cream flowers. Excellent in containers. 12-16in/LSu/Z5-9/30 & 72ct

Asexual propagation prohibited.

Pennisetum alopecuroides ‘Hameln’
PENHA30, PENHA72 (Dwarf Fountain Grass) More compact and shorter than the species. Finely textured, mid-green leaves. Soft greenish-cream panicles appear a few weeks earlier than the species. 2-3ft/MSu/Z5-9/30 & 72ct

All propagation prohibited.
Pennisetum alopecuroides ‘Little Bunny’
PENLB30, PENLB72 (Miniature Fountain Grass) Truly miniature grass; forms a petite, rounded mound of finely textured, green foliage. Small bottle-brush-like plumes dance in and just above the foliage in late summer. Good choice for containers, rock gardens, or the front of the border. 16-20in/LSu/Z5-9/30 & 72ct
**Pennisetum alopecuroides ‘Red Head’**

Pennisetum alopecuroides ‘Red Head’
PENRH30, PENRH72 (Red Head Fountain Grass) An early form of red-flowering Pennisetum. Deep purple buds mature to smoky purple plumes that measure 3in wide and 8-10in long. The green foliage turns gold in fall. From Brent Horvath.

4-5ft/MSu-LSu/Z5-9/30 & 72ct

**Schizachyrium scoparium ‘Smoke Signal’ PP27433**

Schizachyrium scoparium ‘Smoke Signal’ PP27433

Schizachyrium scoparium BLUE HEAVEN™
(‘MinnBlueA’ PP17310)
SCHBH30, SCHBH72 (Little Bluestem) Improved selection with a taller, more upright, non-flopping habit. Brighter steel blue foliage with purple highlights turns a colorful mix of purple, red, pink, and orange in fall. Glossy purple panicles. From Mary Meyer.

42-54in/LSu-EFa/Z3-9/30 & 72ct

Asexual propagation prohibited.

**Schizachyrium scoparium ‘Prairie Blues’**

Schizachyrium scoparium ‘Prairie Blues’

Schizachyrium scoparium ‘Prairie Blues’
SCHPB30 (Little Bluestem) A seed selection with brighter grey-blue foliage than the species. Forms an upright spreading clump of narrow leaves topped with fluffy silver seed heads in late summer. Pinkish orange fall color. Thrives in hot, dry areas.

3ft/LSu-EFa/Z3-9/30ct

Asexual propagation prohibited.

**Schizachyrium scoparium ‘Twilight Zone’ PP27432**

Schizachyrium scoparium ‘Twilight Zone’ PP27432

Schizachyrium scoparium ‘Twilight Zone’

Schizachyrium scoparium ‘Twilight Zone’
SCHTZ30, SCHTZ72 (Little Bluestem) A standout cultivar that possesses a nearly iridescent silvery mauve purple cast all over beginning in midsummer. Retains this color through fall when brighter purple highlights develop. Forms a strictly upright, narrowly columnar clump.

3-3½ft/EFa/Z3-9/30 & 72ct

Asexual propagation prohibited.

**Schizachyrium scoparium PRAIRIE WINDS® ‘Blue Paradise’ PPAF**

Schizachyrium scoparium PRAIRIE WINDS®

Schizachyrium scoparium PRAIRIE WINDS®
SCHBP30, SCHBP72 (Little Bluestem) A result of an extensive Schizachyrium breeding program. Upright and columnar habit stays upright all season, silvery blue leaves in summer. Deep wine fall color.

3-3½ft/EFa/Z3-9/30 & 72ct

All propagation prohibited.

Recommended Finish Size: Premium 1-GL

---

x/x/x/x = foliage height / scape height (where applicable) / bloom time / zone / size offered
**Sporobolus heterolepis ‘Gone with the Wind’**

NEW!

**WGI Introduction**

SPOGW30 (Prairie Dropseed) Short, green foliage is topped by wispy, airy and aromatic tan flower panicles. Sways with the wind, creating unique movement in the garden. Foliage takes on red overtones in late fall. Heat and drought tolerant.

36-40in/LSu/Z3-9/30ct

**Helenium ‘Red Jewel’**

**HELRJG1 (Sneezeweed, Helen’s Flower)** One of the best native perennials for late season color. Similar to ‘Sahin’s Early Flowerer’, but offers a red and orange color palette rather than orange and gold. Tall stems are great for cutting for fresh bouquets.

30-36in/MSu-LSu/Z3-9/G1

Asexual propagation prohibited.

**Heliopsis helianthoides var. scabra ‘Sunburst’**

HELSR30 (False Sunflower) Seed selection similar to ‘Lorraine Sunshine’. Fabulous cream and green variegated foliage is topped with 2-2½in, golden yellow flowers. Greens up a bit in the heat of summer. Showy in combo containers. From Sahin.

30-36in/LSu-ESu/Z4-9/30ct

**Heliopsis** helianthoides var. scabra ‘Sunstruck’ PP25524

HELSKG1, HELSK72 (False Sunflower) More compact habit, more ray florets, and a deeper flower color than ‘Loraine Sunshine’. 2in large, golden yellow flowers appear above the cream and green variegated foliage earlier than typical Heliopsis. From Darwin Perennials.

14-16in/ESu-LSu/Z4-9/G1 & 72ct

Asexual propagation prohibited.

**Heliopsis helianthoides ‘Summer Sun’**

HELSSG1 (False Sunflower) A beautiful, carefree perennial with semi-double, 3in wide, bright gold flowers. Their strong stems make them great for cutting. This selection is very heat tolerant, making it the best choice for southern zones.

36in/LSu-ESu/Z3-9/G1

Asexual propagation prohibited.

**Gypsophila SUMMER SPARKLES® (‘ESM Chispa’ PP19318)**

GYPSSG1, GYPSS72 (Baby’s Breath) The gold standard in taller Baby’s Breath! Naturally forms a refined, compact, dense, uniform mound of grey-green foliage that becomes completely covered in flowers for months. Bright white, semi-double, slightly fragrant flowers. Does not go summer dormant.

23-27in/LSp-MSu/Z3-9/G1, 72ct

Asexual propagation prohibited.

**Gypsophila paniculata FESTIVAL STAR® (‘Danestar’ PP14818)**

GYPFSG1, GYPFS72 (Baby’s Breath) An extremely long blooming cultivar, flowering for several months beginning in late spring. Forms a short, neatly compact mound of grey-green foliage that is covered in dense sprays of pure white flowers. Does not go summer dormant.

12-18in/LSp-ESu/Z3-9/G1, 72ct

All propagation prohibited.

Proven Winners® label and container required.

Recommended Finish Size: Premium 1-Gallon

**Gypsophila paniculata FESTIVAL STAR® (‘Danestar’ PP14818)**

GYPFSG1, GYPFS72 (Baby’s Breath) An extremely long blooming cultivar, flowering for several months beginning in late spring. Forms a short, neatly compact mound of grey-green foliage that is covered in dense sprays of pure white flowers. Does not go summer dormant.

12-18in/LSp-ESu/Z3-9/G1, 72ct

All propagation prohibited.

Proven Winners® label and container required.

Recommended Finish Size: Premium 1-Gallon

**Helenium ‘Red Jewel’**

HELJG1 (Sneezeweed, Helen’s Flower) One of the best native perennials for late season color. Similar to ‘Sahin’s Early Flowerer’, but offers a red and orange color palette rather than orange and gold. Tall stems are great for cutting for fresh bouquets.

30-36in/MSu-EFa/Z4-8/G1

Asexual propagation prohibited.

**Sporobolus heterolepis ‘Gone with the Wind’**
**NEW! Heliopsis helianthoides TUSCAN GOLD™**
('Inhelsodor' PPAF)
HELTG1, HELTG72 (False Sunflower) Sunny yellow flowers have golden centers and matching eyes. Compact, upright habit of dark green leaves; resists powdery mildew. A perfect flower for bouquets. Larger flowers than 'Tuscan Sun'.
24-32in/MSu-LSu/Z4-9/G1, 72ct
Asexual propagation prohibited.
Proven Winners® label and container required.
Recommended Finish Size: Premium 1-Gallon (G1), Trade 1-GL (72ct)

**Helleborus IVORY PRINCE**
('Walhelivor' PP16199)
HELIP20 (Lenten Rose) First year blooming after vernalization. Burgundy-pink buds open to outward-facing, ivory blossoms streaked with rose and chartreuse. Dark blue-green foliage stays compact.
12-18in/LWi-MSp/Z4-9/20ct
Asexual propagation prohibited.

**NEW! Helleborus ROSEMARY**
('Walhero' PP19439)
HELRM72 (Lenten Rose) First year flowering after vernalization. Rose pink flowers face outward, darkening with age. Slight speckling on the petals give the plant extra character.
12-24in/LWi-MSp/Z4-9/72ct
Asexual propagation prohibited.

**Heliopsis ‘Loraine Sunshine’ PP10690**
HELLSG1, HELLS72 (False Sunflower) Variegated white leaves with extensive green veining that darkens late in the season. Golden yellow, single, daisy-like flowers on upright stems.
30in/MSu-LSu/Z3-9/G1, 72ct
Asexual propagation prohibited.

**Heliopsis helianthoides ‘Tuscan Sun’ PP18763**
HELTSG1, HELTS72 (False Sunflower) A beautiful, carefree native cultivar that offers a more compact habit and good disease resistance. Golden yellow, daisy-like flowers are produced on strong stems atop the deep green foliage.
24-36in/MSu-LSu/Z3-9/G1, 72ct
Asexual propagation prohibited.
Proven Winners® label and container required.
Recommended Finish Size: Premium 1-Gallon (G1), Trade 1-GL (72ct)
Helleborus HONEYMOON™ Series

From Walters Gardens, Inc. hybridizer Hans Hansen, this is a series of single Hellebores. In his breeding work, Hans selects for plants with notable vigor, rich flower colors, and showy floral displays with large numbers of blossoms per plant.

Helleborus ‘New York Night’

WGI Introduction
HELNY20, HELNY30, HELNY128 (Lenten Rose) 2½-3in, single flowers with shades of black that include deep grey-purple, jet black, and black-purple.
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct $
Helleborus HONEYMOON™ Series, cont.

Helleborus ‘Paris in Pink’
WGI Introduction
HELPN20, HELPN30, HELPN128 (Lenten Rose) 3½-4in, single light to medium pink flowers.
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct $

Helleborus ‘Rome in Red’
WGI Introduction
HELRO20, HELRO30, HELRO128 (Lenten Rose) 3-4in, single rich maroon to wine red flowers.
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct $

Helleborus ‘Rio Carnival’
WGI Introduction
HELRC20, HELRC30, HELRC128 (Lenten Rose) 2½-3in, single light yellow flowers with heavy burgundy red speckling.
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct $

Helleborus ‘Sandy Shores’
WGI Introduction
HELSH20, HELSH30, HELSH128 (Lenten Rose) 2½-3in, single pale apricot flowers with a lovely rosy peach color on the back of the petals.
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct $

Helleborus ‘Spanish Flare’
WGI Introduction
HELFE20, HELFE30, HELFE128 (Lenten Rose) 3in, single light yellow flowers with maroon red flares concentrated around the nectaries. A novel color pattern for Lenten Rose.
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct $

x/x/x/x = foliage height / scape height (where applicable) / bloom time / zone / size offered
From Walters Gardens, Inc. hybridizer Hans Hansen, this is a series of double Hellebores. In his breeding work, Hans selects for plants with notable vigor, rich flower colors, and showy floral displays with large numbers of blossoms per plant.

**Helleborus WEDDING PARTY™ Series - Mixed**  
*WGI Introduction*  
HELWP20, HELWP30, HELWP128 (Lenten Rose) A mixture of color strains custom blended at the plug level for a more evenly distributed mix. Colors in the mix include black, mauve purple, white, yellow, and pink.  
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct

**Helleborus ‘Blushing Bridesmaid’**  
*WGI Introduction*  
HELBB20, HELBB30, HELBB128 (Lenten Rose) 2-2½in, double white flowers with raspberry pink veining and picotee edge.  
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct

**Helleborus ‘Confetti Cake’**  
*WGI Introduction*  
HELC20, HELCC30, HELCC128 (Lenten Rose) 2½-3in, double white flowers with burgundy speckling concentrated toward the center of the petals.  
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct

**Helleborus ‘Dark and Handsome’**  
*WGI Introduction*  
HELDH20, HELDH30, HELDH128 (Lenten Rose) 2½-3in, near black to black-purple flowers.  
18-24in/ESp-MSp/Z4-9/20, 30 & 128ct
Helleborus WEDDING PARTY™ Series, cont.

**Helleborus ‘First Dance’**  
WGI Introduction
