

# SUPERTUNIA®

*Petunia hybrids*

SUPERTUNIA® Bordeaux  
*Petunia hybrid* 'Lanbor' USPP16144 Can2532

#### **The Best Petunia. Period.**

Supertunia varieties are exceptional performers no matter how and where you use them. They create extraordinary hanging baskets and containers because their compact habit means they fill in quickly and don't get leggy. Plus, they're so easy to maintain that they'll still look great even when you forget to water and fertilize.

#### **Growing Tips:**

Unlike some other Petunias, Supertunia is self-cleaning so no deadheading is necessary.

**Exposure:** Full sun

**Height:** 16-24"

**Spacing:** 18-24"

**Hardy Temp:** 30°F (-1°C)

#### **Uses:**

Use in large combinations and landscapes.

#### **Features:**

Vigorous, mounding plants are perfect landscape fillers; blooms all season; low maintenance; attracts butterflies and hummingbirds; deer resistant.

### Growing Tips for SUPERTUNIA®

- Requires high light in production.
- Needs 250+ ppm fertilizer. Watch pH and EC levels.
- Mini Strawberry Pink Veined and Mini Rose Veined are more sensitive to cold. Keep above 50° F.
- Day-length neutral varieties need less PGRs. Cold temperatures also control growth.
- Yellow growth tips often indicate an iron shortage in response to high pH.

### Additional Culture Information for SUPERTUNIA®

pH/EC: 5.5 - 5.8 / 1.0 - 2.0  
Growing Temperature: 65-72°/55-65°  
Holding Temperature: 40-50° outdoors  
Water Requirements: Moderate to Moist  
Planting and Timing: Early Spring through Fall Finish. Standard Plants Per Pot.  
Finish Times in Weeks: For 4-5", 4-6; for 6"/gallon, 5-7; for 8", 7-9; for 10-12", 10-12  
Spring Outdoor Finish: First to go outside

### Notes:

For pots 6" and smaller, pinch at transplanting only.  
For hanging baskets and pots larger than 6", soft pinch at planting and trim around pot just prior to hanging.  
10-15 ppm Sumagic® spray or 1-3 ppm Bonzi® drench are effective at controlling growth. Apply as needed.  
Supertunia Minis may require higher rates of PGRs.
